

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, Pilani  
Pilani Campus

AUGSD  
First Semester 2020-2021  
COURSE HANDOUT (PART II)

In addition to Part-I (general handout for all courses appended to this time table) this portion gives further details pertaining to the course.

Course No.: CS F415

Course Title: **Data Mining**

Instructor-in-charge: **POONAM GOYAL** ([poonam@pilani.bits-pilani.ac.in](mailto:poonam@pilani.bits-pilani.ac.in))

**1. Objective and Scope**

The course explores the concepts and techniques of data mining, a promising and flourishing frontier in database systems. Data Mining is automated extraction of patterns representing knowledge implicitly stored in large databases, data warehouses, and other massive information repositories. It is a decision support tool that addresses unique decision support problems that cannot be solved by other data analysis tools such as Online Analytical Processing (OLAP). The course covers data mining tasks like constructing decision trees, finding association rules, classification, and clustering. The course is designed to provide students with a broad understanding in the design and use of data mining algorithms. The course also aims at providing a holistic view of data mining. It will have database, statistical, algorithmic and application perspectives of data mining.

**2. Text Book**

- i) Tan P. N., Steinbach M & Kumar V. *“Introduction to Data Mining”* Pearson Education, 2006.

**3. Reference Books**

- i) Han J & Kamber M, *“Data Mining: Concepts and Techniques”*, Morgan Kaufmann Publishers, Second Edition, 2006  
ii) Zaki MJ & Wagner M JR, *“Data Mining and Analysis-Fundamental Concepts and Algorithms”* Cameridge Univ Press, 2014.  
iii) Dunhum M.H. & Sridhar S. *“Data Mining-Introductory and Advanced Topics”*, Pearson Education, 2006.

**4. Course Plan**

Module	Lecture Sessions	Reference	Learning Objective
I Introduction to Data Mining	L 1-2 <ul style="list-style-type: none"><li>Motivation</li><li>What is Data Mining?</li><li>Data Mining Tasks</li><li>Issues in Data Mining</li><li>Applications</li></ul>	T 1+Class Notes	To understand the definition and applications of Data Mining
II Data Preprocessing	L 3-5 <ul style="list-style-type: none"><li>Types of data</li><li>Data Quality</li><li>Data preprocessing</li><li>Similarity and Dissimilarity Measures</li></ul>	T 2	To understand types of data and to improve the quality of data and efficiency and the ease of the mining process.
III Data Exploration	<ul style="list-style-type: none"><li>Data Set &amp; its Statistics</li><li>Visualization</li><li>OLAP &amp; Multidimensional Data</li></ul>	T 3 Self Study	To study how to investigate the data

	Analysis		
IV Classification: Basic and alternate Techniques	L 6-10 <ul style="list-style-type: none"> <li>• Introduction</li> <li>• Applications</li> <li>• Decision Tree based Algorithms</li> <li>• Model Over-fitting</li> <li>• Performance Evaluation of a Classifier</li> <li>• Comparing Classifiers</li> </ul>	T4+Class Notes	To understand Classification and its applications To study the alternative approaches for Classification
	L 11-15 <ul style="list-style-type: none"> <li>• Rule Based Classifier</li> <li>• Nearest Neighbor Classifier</li> <li>• Bayesian Classification</li> <li>• Support Vector Machine</li> <li>• Ensemble Classifiers</li> <li>• Class Imbalance Problem</li> <li>• Multiclass Problem</li> </ul>	T5	
V Association Rule Mining: Basic and advanced	L 16-19 <ul style="list-style-type: none"> <li>• Introduction</li> <li>• Applications</li> <li>• Market-Basket Analysis</li> <li>• Frequent Itemsets</li> <li>• Apriori Algorithm</li> <li>• Alternative Methods</li> </ul>	T6	To understand applications of Association Rule Mining and algorithms to find them To understand methods and need for finding complex Association Rules
	L 20-23 <ul style="list-style-type: none"> <li>• Generalized Association Rules</li> <li>• Multilevel Association Rules</li> <li>• Multidimensional Association Rules</li> <li>• Temporal Association Rules</li> <li>• Infrequent Patterns</li> <li>• Constrained Based Association Rules</li> </ul>	T7+Class Notes	
VI Clustering: Algorithms and Issues	L 24-28 <ul style="list-style-type: none"> <li>• Introduction</li> <li>• Applications</li> <li>• Partitioning Algorithms</li> <li>• Hierarchical Algorithms</li> <li>• Density based Algorithms</li> <li>• Cluster Evaluation</li> </ul>	T8	To understand applications and algorithms for Clustering To study advanced topics in cluster analysis
	L 29-33	T9	

**Please Consider Your Environmental Responsibilities**  
**Do Not Print Unless Necessary**

**BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, Pilani**  
Pilani Campus

	<ul style="list-style-type: none"> <li>• Characteristics of Data, Clusters and clustering Algorithms</li> <li>• Graph Based Clustering</li> <li>• Scalable Clustering Algorithms</li> </ul>		
VII Anomaly Detection	L 34-35 <ul style="list-style-type: none"> <li>• Preliminaries</li> <li>• Statistical Approaches</li> <li>• Proximity based Outlier Detection</li> <li>• Density based Outlier Detection</li> <li>• Clustering Based Techniques</li> </ul>	T10	To understand detection of anomalies & their causes
VIII Advanced Topics	L 36-40 <ul style="list-style-type: none"> <li>• Web Mining</li> <li>• Incremental Algorithms for Data Mining</li> <li>• Stream Data Mining</li> </ul>	Class Notes	To introduce advanced topics in Data Mining

## 5. Evaluation Schedule

Component	Duration	Weightage(%)	Date & Time	Venue	Remarks
Test 1	30 Mins.	10-15	4 <sup>th</sup> Sep		Closed Book
Test 2	30 Mins.	10-15	7 <sup>th</sup> Oct		Closed Book
Test 3	30 Mins.	10-15	4 <sup>th</sup> Nov		Closed Book
Labs/LabTest/quiz(s)		20-35	To be announced		
Comprehensive	3 Hours	35	1 <sup>st</sup> Dec		Partly open

## 7. Labs

Two hour lab will be conducted every week. Students will be applying the concepts of data mining on the problems and cases through the Data Mining software, IBM SPSS Modeler. Students will also be exposed to modeling of the problems.

## 8. Assignments/Quiz(s)

Assignment(s) (programming/reading) will be given to the students. This will immensely help the students in gaining a better understanding of the subject.

## 9. Chamber Consultation Hours

To be announced in the class.

## 10. Make-up Policy:

Prior Permission is must and Make-up shall be granted only in genuine cases based on individual's need and circumstances.

## 11. Notices

All the notices concerning this course will be displayed on the **CSIS Notice Board** or **course website**.
